

Newall Linear Encoders for CNC Mills with ProtoTrak™ Controls

Get all the benefits of linear encoder accuracy without the frustrating down time of encoder failure.

- Direct replacement of Trak™ sensor or glass scale*
- Featuring Newall's renowned linear encoder reliability:
 - Withstands dust, dirt, chips, coolant and oil
 - IP67 rated (fully submersible)
 - Tolerant to shock and vibration
 - No mechanical wear, cleaning or maintenance
- Easy to install
- No more expensive sensor wheel repairs
- No more broken, scratched or contaminated glass
- Competitively priced

To learn more about Newall's revolutionary linear encoder technology, visit our new Web site at newall.com or call us at 1-800-229-4376.

*Must have Trak™ sensor or glass scale option available on the machine to be compatible.
